In the fall of 2021, the DEKRA Commercial Vehicle Outlook Conference had to be cancelled due to the Covid pandemic. It has now been rescheduled for June 2nd and 3rd. Having been held three times since 2015, the event established itself as the central platform for dialog within the transportation and logistics industry. Plans are to hold the conference as a physical event in Berlin.

The conference brings together top-class experts from the automotive and automotive supply industries, the policymaking world, and academia. This year, the program entitled “Future-proof Transportation” will be split into three topic areas, which will be explored in tandem: commercial vehicle technology, digital transformation, and the last mile.

In total, the event organizers are expecting more than 350 experts, academics, and top managers from well-known companies in the commercial vehicles industry – including many from international businesses such as Chereau SAS, Continental, Dachser, DAF, Daimler Truck, Fleetboard Logistics, Goodyear Dunlop Tires, IKEA, Knorr-Bremse, Kögel, Krone, MAN, Quantron, Rhenus, Scania, Schmitz Cargobull, Shell, and ZF Friedrichshafen. Also in attendance will be speakers from politics and a range of different associations and European organizations.

In addition, the European Commercial Vehicle Safety Awards of 2020 and 2021 will be presented at this year’s Outlook Conference. Both ceremonies had to be postponed due to the pandemic. Each year, the award is conferred to individuals whose professional activities have played an especially significant role in enhancing the safety of commercial vehicles. It is handed out by DEKRA, the German Road Safety Council (DVR), and the European Association for Accident Research and Accident Analysis (EVU).

About DEKRA

DEKRA has been active in the field of safety for almost 100 years. Founded in 1925 in Berlin as Deutscher Kraftfahrzeug-Überwachungs-Verein e.V., it is today one of the world's leading expert organizations. DEKRA SE is a subsidiary of DEKRA e.V. and manages the Group's operating business. In 2021, DEKRA generated preliminary sales totaling almost EUR 3.5 billion. The company currently employs around 46,500 people in approximately 60 countries on all continents. With qualified and independent expert services, they work for safety on the road, at work and at home. These services range from vehicle inspection and expert appraisals to claims services, industrial and building inspections, safety consultancy, testing and certification of products and systems, as well as training courses and temporary work. The vision for the company's 100th birthday in 2025 is that DEKRA will be the global partner for a safe, secure and sustainable world. With a platinum rating from EcoVadis, DEKRA is now in the top one percent of sustainable businesses ranked.
