Germany

DEKRA showcasing the complete spectrum of elevator inspection at “Interlift”, the world's leading trade fair for the elevator industry, in Augsburg from April 26 – 29, 2022. The focus will be on an inspection portfolio that has been digitalized in many steps. DEKRA's experts use modern tools to create greater safety and improved inspection workflow for elevator systems.

<https://www.dekra.com/en/newsroom>

The **authorized inspection agency (ZÜS)** of DEKRA Automobil GmbH now offers an end-to-end digital process for recurring elevator inspections: from making appointments and handling inspection reports to archiving and invoicing. This creates transparency for operators, reduces the administrative workload, and optimizes the inspection and schedule management. The recurring inspection by the inspection engineer at the operating site itself is carried out using the tried-and-tested “LiKoS” digital elevator control system developed by DEKRA.

Placing elevators on the market is also largely paperless in terms of preparation and follow-up. DEKRA's **notified body** offers a digital inspection process that can reduce the time required for document inspection, the acceptance test at the operating site, and certification of new systems to just a few days. Invoicing can also be adapted to customer requirements.

DEKRA's location at “Interlift”:

Hall 7 / Stand 108

About DEKRA

DEKRA has been active in the field of safety for almost 100 years. Founded in 1925 in Berlin as Deutscher Kraftfahrzeug-Überwachungs-Verein e.V., it is today one of the world's leading expert organizations. DEKRA SE is a subsidiary of DEKRA e.V. and manages the Group's operating business. In 2021, DEKRA generated preliminary sales totaling almost EUR 3.5 billion. The company currently employs around 46,500 people in approximately 60 countries on all continents. With qualified and independent expert services, they work for safety on the road, at work and at home. These services range from vehicle inspection and expert appraisals to claims services, industrial and building inspections, safety consultancy, testing and certification of products and systems, as well as training courses and temporary work. The vision for the company's 100th birthday in 2025 is that DEKRA will be the global partner for a safe, secure, and sustainable world.
